JAVA QUESTION BANK (BY: SABYASACHI MOHANTY)

1. Java Program to Print an Integer (Entered by the User)
2. Java Program to Add Two Integers
3. Java Program to Multiply two Floating Point Numbers
4. Java Program to Find ASCII Value of a character
5. Java Program to Compute Quotient and Remainder
6. Java Program to Swap Two Numbers
7. Java Program to Check Whether a Number is Even or Odd
8. Java Program to Check Whether an Alphabet is Vowel or Consonant
9. Java Program to Find the Largest Among Three Numbers
10. Java Program to Find all Roots of a Quadratic Equation
11. Java Program to Check Leap Year
12. Java Program to Check Whether a Number is Positive or Negative
13. Java Program to Check Whether a Character is Alphabet or Not
14. Java Program to Calculate the Sum of Natural Numbers
15. Java Program to Find Factorial of a Number
16. Java Program to Generate Multiplication Table
17. Java Program to Display Fibonacci Series
18. Java Program to Find GCD of two Numbers
19. Java Program to Find LCM of two Numbers
20. Java Program to Display Alphabets (A to Z) using loop
21. Java Program to Count Number of Digits in an Integer
22. Java Program to Reverse a Number
23. Java Program to Calculate the Power of a Number
24. Java Program to Check Palindrome
25. Java Program to Check Whether a Number is Prime or Not
26. Java Program to Display Prime Numbers Between Two Intervals
27. Java Program to Check Armstrong Number
28. Java Program to Display Armstrong Number Between Two Intervals
29. Java Program to Display Prime Numbers Between Intervals Using Function
30. Java Program to Display Armstrong Numbers Between Intervals Using Function
31. Java Program to Display Factors of a Number
32. Java Program to Make a Simple Calculator Using switch...case
33. Java Program to Check Whether a Number can be Expressed as Sum of Two Prime Numbers
34. Java Program to Find the Sum of Natural Numbers using Recursion
35. Java Program to Find Factorial of a Number Using Recursion
36. Java Program to Find G.C.D Using Recursion
37. Java Program to Convert Binary Number to Decimal and vice-versa
38. Java Program to Convert Octal Number to Decimal and vice-versa
39. Java Program to Convert Binary Number to Octal and vice-versa
40. Java Program to Reverse a Sentence Using Recursion
41. Java Program to calculate the power using recursion
42. Java Program to Calculate Average Using Arrays
43. Java Program to Find Largest Element of an Array
44. Java Program to Calculate Standard Deviation
45. Java Program to Add Two Matrix Using Multi-dimensional Arrays
46. Java Program to Multiply Two Matrix Using Multi-dimensional Arrays
47. Java Program to Multiply two Matrices by Passing Matrix to a Function
48. Java Program to Find Transpose of a Matrix
49. Java Program to Find the Frequency of Character in a String
50. Java Program to Count the Number of Vowels and Consonants in a Sentence
51. Java Program to Sort Elements in Lexicographical Order (Dictionary Order)
52. Java Program to Add Two Complex Numbers by Passing Class to a Function
53. Java Program to Calculate Difference Between Two Time Periods
54. Java Code To Create Pyramid and Pattern
55. Java Program to Remove All Whitespaces from a String
56. Java Program to Print an Array
57. Java Program to Convert String to Date
58. Java Program to Round a Number to n Decimal Places

59. Java Program to Concatenate Two Arrays
60. Java Program to Convert Character to String and Vice-Versa
61. Java Program to Check if An Array Contains a Given Value
62. Java Program to Check if a String is Empty or Null
63. Java Program to Get Current Date/Time
64. Java Program to Convert Milliseconds to Minutes and Seconds
65. Java Program to Add Two Dates
66. Java Program to Join Two Lists
67. Java Program to Convert a List to Array and Vice Versa
68. Java Program to Get Current Working Directory
69. Java Program to Convert Map (HashMap) to List
70. Java Program to Convert Array to Set (HashSet) and Vice-Versa
71. Java Program to Convert Byte Array to Hexadecimal
72. Java Program to Create String from Contents of a File
73. Java Program to Append Text to an Existing File
74. Java Program to Convert a Stack Trace to a String
75. Java Program to Convert File to byte array and Vice-Versa
76. Java Program to Convert InputStream to String
77. Java Program to Convert OutputStream to String
78. Java Program to Lookup enum by String value
79. Java Program to Compare Strings
80. Java Program to Sort a Map By Values
81. Java Program to Sort ArrayList of Custom Objects By Property
82. Java Program to Check if a String is Numeric
83. Java Program to convert char type variables to int
84. Java Program to convert int type variables to char
85. Java Program to convert long type variables into int
86. Java Program to convert int type variables to long
87. Java Program to convert boolean variables into string
88. Java Program to convert string type variables into boolean
89. Java Program to convert string type variables into int
90. Java Program to convert int type variables to String
91. Java Program to convert int type variables to double
92. Java Program to convert double type variables to int
93. Java Program to convert string variables to double
94. Java Program to convert double type variables to string
95. Java Program to convert primitive types to objects and vice versa
96. Java Program to Implement Bubble Sort algorithm
97. Java Program to Implement Quick Sort Algorithm
98. Java Program to Implement Merge Sort Algorithm
99. Java Program to Implement Binary Search Algorithm
100. Java Program to Call One Constructor from another
101. Java Program to implement private constructors
102. Java Program to pass lambda expression as a method argument
103. Java Program to pass method call as arguments to another method
104. Java Program to Calculate the Execution Time of Methods
105. Java Program to Convert a String into the InputStream
106. Java Program to Convert the InputStream into Byte Array
107. Java Program to Load File as InputStream
108. Java Program to Create File and Write to the File
109. Java Program to Read the Content of a File Line by Line
110. Java Program to Delete File in Java
111. Java Program to Delete Empty and Non-empty Directory
112. Java Program to Get the File Extension
113. Java Program to Get the name of the file from the absolute path
114. Java Program to Get the relative path from two absolute paths
115. Java Program to Count number of lines present in the file
116. Java Program to Determine the class of an object
117. Java Program to Create an enum class
118. Java Program to Print object of a class

119.Java Program to Create custom exception
120.Java Program to Create an Immutable Class
121.Java Program to Check if two strings are anagram
122.Java Program to Compute all the permutations of the string
123.Java Program to Create random strings
124.Java Program to Clear the StringBuffer
125.Java Program to Capitalize the first character of each word in a String
126.Java Program to Iterate through each characters of the string.
127.Java Program to Differentiate String == operator and equals() method
128.Java Program to Implement switch statement on strings
129.Java Program to Calculate simple interest and compound interest
130.Java Program to Implement multiple inheritance
131.Java Program to Determine the name and version of the operating system
132.Java Program to Check if two of three boolean variables are true
133.Java Program to Iterate over enum
134.Java Program to Check the birthday and print Happy Birthday message
135.Java Program to Implement LinkedList
136.Java Program to Implement stack data structure
137.Java Program to Implement the queue data structure
138.Java Program to Get the middle element of LinkedList in a single iteration
139.Java Program to Convert the LinkedList into an Array and vice versa
140.Java Program to Convert the ArrayList into a string and vice versa
141.Java Program to Iterate over an ArrayList
142.Java Program to Iterate over a HashMap
143.Java Program to Iterate over a Set
144.Java Program to Merge two lists
145.Java Program to Update value of HashMap using key
146.Java Program to Remove duplicate elements from ArrayList
147.Java Program to Get key from HashMap using the value
148.Java Program to Detect loop in a LinkedList
149.Java Program to Calculate union of two sets
150.Java Program to Calculate the intersection of two sets
151.Java Program to Calculate the difference between two sets
152.Java Program to Check if a set is the subset of another set
153.Java Program to Sort map by keys
154.Java Program to Pass ArrayList as the function argument
155.Java Program to Iterate over ArrayList using Lambda Expression
156.Java Program to Implement Binary Tree Data Structure
157.Java Program to Perform the preorder tree traversal
158.Java Program to Perform the postorder tree traversal
159.Java Program to Perform the inorder tree traversal
160.Java Program to Count number of leaf nodes in a tree
161.Java Program to Check if a string contains a substring
162.Java Program to Access private members of a class
163.Java Program to Check if a string is a valid shuffle of two distinct strings
164.Java Program to Implement the graph data structure
165.Java Program to Remove elements from the LinkedList.
166.Java Program to Add elements to a LinkedList
167.Java Program to Access elements from a LinkedList.
168.Java Program to Print an Integer (Entered by the User)
169.Java Program to Add Two Integers
170.Java Program to Multiply two Floating Point Numbers
171.Java Program to Find ASCII Value of a character
172.Java Program to Compute Quotient and Remainder
173.Java Program to Swap Two Numbers
174.Java Program to Check Whether a Number is Even or Odd
175.Java Program to Check Whether an Alphabet is Vowel or Consonant
176.Java Program to Find the Largest Among Three Numbers
177.Java Program to Find all Roots of a Quadratic Equation
178.Java Program to Check Leap Year

179.Java Program to Check Whether a Number is Positive or Negative
180.Java Program to Check Whether a Character is Alphabet or Not
181.Java Program to Calculate the Sum of Natural Numbers
182.Java Program to Find Factorial of a Number
183.Java Program to Generate Multiplication Table
184.Java Program to Display Fibonacci Series
185.Java Program to Find GCD of two Numbers
186.Java Program to Find LCM of two Numbers
187.Java Program to Display Alphabets (A to Z) using loop
188.Java Program to Count Number of Digits in an Integer
189.Java Program to Reverse a Number
190.Java Program to Calculate the Power of a Number
191.Java Program to Check Palindrome
192.Java Program to Check Whether a Number is Prime or Not
193.Java Program to Display Prime Numbers Between Two Intervals
194.Java Program to Check Armstrong Number
195.Java Program to Display Armstrong Number Between Two Intervals
196.Java Program to Display Prime Numbers Between Intervals Using Function
197.Java Program to Display Armstrong Numbers Between Intervals Using Function
198.Java Program to Display Factors of a Number
199.Java Program to Make a Simple Calculator Using switch...case
200.Java Program to Check Whether a Number can be Expressed as Sum of Two Prime Numbers
201.Java Program to Find the Sum of Natural Numbers using Recursion
202.Java Program to Find Factorial of a Number Using Recursion
203.Java Program to Find G.C.D Using Recursion
204.Java Program to Convert Binary Number to Decimal and vice-versa
205.Java Program to Convert Octal Number to Decimal and vice-versa
206.Java Program to Convert Binary Number to Octal and vice-versa
207.Java Program to Reverse a Sentence Using Recursion
208.Java Program to calculate the power using recursion
209.Java Program to Calculate Average Using Arrays
210.Java Program to Find Largest Element of an Array
211.Java Program to Calculate Standard Deviation
212.Java Program to Add Two Matrix Using Multi-dimensional Arrays
213.Java Program to Multiply Two Matrix Using Multi-dimensional Arrays
214.Java Program to Multiply two Matrices by Passing Matrix to a Function
215.Java Program to Find Transpose of a Matrix
216.Java Program to Find the Frequency of Character in a String
217.Java Program to Count the Number of Vowels and Consonants in a Sentence
218.Java Program to Sort Elements in Lexicographical Order (Dictionary Order)
219.Java Program to Add Two Complex Numbers by Passing Class to a Function
220.Java Program to Calculate Difference Between Two Time Periods
221.Java Code To Create Pyramid and Pattern
222.Java Program to Remove All Whitespaces from a String
223.Java Program to Print an Array
224.Java Program to Convert String to Date
225.Java Program to Round a Number to n Decimal Places
226.Java Program to Concatenate Two Arrays
227.Java Program to Convert Character to String and Vice-Versa
228.Java Program to Check if An Array Contains a Given Value
229.Java Program to Check if a String is Empty or Null
230.Java Program to Get Current Date/Time
231.Java Program to Convert Milliseconds to Minutes and Seconds
232.Java Program to Add Two Dates
233.Java Program to Join Two Lists
234.Java Program to Convert a List to Array and Vice Versa
235.Java Program to Get Current Working Directory
236.Java Program to Convert Map (HashMap) to List
237.Java Program to Convert Array to Set (HashSet) and Vice-Versa
238.Java Program to Convert Byte Array to Hexadecimal

239.Java Program to Create String from Contents of a File
240.Java Program to Append Text to an Existing File
241.Java Program to Convert a Stack Trace to a String
242.Java Program to Convert File to byte array and Vice-Versa
243.Java Program to Convert InputStream to String
244.Java Program to Convert OutputStream to String
245.Java Program to Lookup enum by String value
246.Java Program to Compare Strings
247.Java Program to Sort a Map By Values
248.Java Program to Sort ArrayList of Custom Objects By Property
249.Java Program to Check if a String is Numeric
250.Java Program to convert char type variables to int
251.Java Program to convert int type variables to char
252.Java Program to convert long type variables into int
253.Java Program to convert int type variables to long
254.Java Program to convert boolean variables into string
255.Java Program to convert string type variables into boolean
256.Java Program to convert string type variables into int
257.Java Program to convert int type variables to String
258.Java Program to convert int type variables to double
259.Java Program to convert double type variables to int
260.Java Program to convert string variables to double
261.Java Program to convert double type variables to string
262.Java Program to convert primitive types to objects and vice versa
263.Java Program to Implement Bubble Sort algorithm
264.Java Program to Implement Quick Sort Algorithm
265.Java Program to Implement Merge Sort Algorithm
266.Java Program to Implement Binary Search Algorithm
267.Java Program to Call One Constructor from another
268.Java Program to implement private constructors
269.Java Program to pass lambda expression as a method argument
270.Java Program to pass method call as arguments to another method
271.Java Program to Calculate the Execution Time of Methods
272.Java Program to Convert a String into the InputStream
273.Java Program to Convert the InputStream into Byte Array
274.Java Program to Load File as InputStream
275.Java Program to Create File and Write to the File
276.Java Program to Read the Content of a File Line by Line
277.Java Program to Delete File in Java
278.Java Program to Delete Empty and Non-empty Directory
279.Java Program to Get the File Extension
280.Java Program to Get the name of the file from the absolute path
281.Java Program to Get the relative path from two absolute paths
282.Java Program to Count number of lines present in the file
283.Java Program to Determine the class of an object
284.Java Program to Create an enum class
285.Java Program to Print object of a class
286.Java Program to Create custom exception
287.Java Program to Create an Immutable Class
288.Java Program to Check if two strings are anagram
289.Java Program to Compute all the permutations of the string
290.Java Program to Create random strings
291.Java Program to Clear the StringBuffer
292.Java Program to Capitalize the first character of each word in a String
293.Java Program to Iterate through each characters of the string.
294.Java Program to Differentiate String == operator and equals() method
295.Java Program to Implement switch statement on strings
296.Java Program to Calculate simple interest and compound interest
297.Java Program to Implement multiple inheritance
298.Java Program to Determine the name and version of the operating system

299.Java Program to Check if two of three boolean variables are true
300.Java Program to Iterate over enum
301.Java Program to Check the birthday and print Happy Birthday message
302.Java Program to Implement LinkedList
303.Java Program to Implement stack data structure
304.Java Program to Implement the queue data structure
305.Java Program to Get the middle element of LinkedList in a single iteration
306.Java Program to Convert the LinkedList into an Array and vice versa
307.Java Program to Convert the ArrayList into a string and vice versa
308.Java Program to Iterate over an ArrayList
309.Java Program to Iterate over a HashMap
310.Java Program to Iterate over a Set
311.Java Program to Merge two lists
312.Java Program to Update value of HashMap using key
313.Java Program to Remove duplicate elements from ArrayList
314.Java Program to Get key from HashMap using the value
315.Java Program to Detect loop in a LinkedList
316.Java Program to Calculate union of two sets
317.Java Program to Calculate the intersection of two sets
318.Java Program to Calculate the difference between two sets
319.Java Program to Check if a set is the subset of another set
320.Java Program to Sort map by keys
321.Java Program to Pass ArrayList as the function argument
322.Java Program to Iterate over ArrayList using Lambda Expression
323.Java Program to Implement Binary Tree Data Structure
324.Java Program to Perform the preorder tree traversal
325.Java Program to Perform the postorder tree traversal
326.Java Program to Perform the inorder tree traversal
327.Java Program to Count number of leaf nodes in a tree
328.Java Program to Check if a string contains a substring
329.Java Program to Access private members of a class
330.Java Program to Check if a string is a valid shuffle of two distinct strings
331.Java Program to Implement the graph data structure
332.Java Program to Remove elements from the LinkedList.
333.Java Program to Add elements to a LinkedList
334.Java Program to Access elements from a LinkedList.

Java Basic Programs

1. Fibonacci series in Java
2. Factorial Program in Java
3. Palindrome Program in Java
4. How to reverse String in Java
5. How to Reverse a Number in Java
6. How do you find duplicate characters in a string
7. How to Print ASCII Value in Java
8. How to Create Object in Java
9. How to Compare Two Objects in Java
10. Program to swap two numbers
11. Java Program to Find Sum of Natural Numbers
12. Java Program to Display Odd Numbers From 1 to 100
13. Sum of Numbers in Java
14. Java Program to Find Largest of Three Numbers
15. Java Program to Check if a Given Number is Perfect Square
16. Java Program to Check if a Number is Positive or Negative

Java Number Programs

1. Special Number in Java
2. Perfect Number Program in Java

3. Prime Number Program in Java
4. Armstrong Number in Java
5. Lucky Number in Java
6. Spy Number in Java
7. Evil Number Java
8. Duck Number Java
9. ISBN Number Java
10. Krishnamurthy Number Java
11. Xylem and Phloem Number in Java
12. Kynea Numbers in Java
13. House Numbers in Java
14. Tribonacci Number Java
15. Odious Number in Java
16. Strontio Number in Java
17. Tech Number in Java
18. Fascinating Number in Java
19. Sunny Number in Java
20. Automorphic Number Program in Java
21. Mystery Number in Java
22. Lead Number in Java
23. Bouncy Number in Java
24. Economical Number in Java
25. Neon Number in Java
26. Unique Number in Java Program
27. Power of a Number in Java
28. Magic Number in Java
29. Catalan Number in Java
30. Self-Descriptive Numbers in Java
31. Hogben Numbers in Java
32. Centered Square Numbers in Java
33. Nude Numbers in Java
34. Sphenic Number in Java
35. Program to determine whether a given number is a happy number
36. Amicable Pair Number in Java
37. Achilles Number in Java
38. Frugal Number in Java
39. Cullen Number in Java
40. Smith Number in Java
41. Tetranacci Number in Java
42. Undulating Number in Java
43. Moran Numbers in Java
44. Cardinal Number in Java
45. Pyramidal Number in Java
46. Buzz Number Java
47. Bell Number in Java
48. Pancake Number in Java
49. Sublime Number in Java
50. Ramanujan Number or Taxicab Number in Java
51. Untouchable Number in Java
52. Pernicious Number in Java
53. Narcissistic Number in Java
54. Keith Number in Java
55. Goldbach Number in Java
56. Mersenne Number in Java
57. Adam Number in Java

Data structures
Java Array Programs

---

1. Java Program to sort the elements of an array in ascending order

2. Program to print the elements of an array
3. Program to print the elements of an array in reverse order
4. Program to print the largest element in an array
5. Program to print the duplicate elements of an array.
6. Character Array in Java
7. How to Take Array Input in Java
8. Program to print the smallest element in an array
9. Program to print the elements of an array
10. Java Program to right rotate the elements of an array
11. Java Program to print the sum of all the items of the array
12. Java Program to print Odd and Even Numbers from an Array
13. Java Program to remove duplicate element in an Array
14. Program to copy all elements of one array into another array
15. Jagged Array in Java
16. Minimum Difference Subarrays in Java
17. Beautiful Array in Java
18. Dynamic Array in Java
19. Iterate JSON Array Java
20. String Array in Java
21. Java ArrayList
22. How to Create Array of Objects in Java
23. Static Array in Java
24. Java Program to find Largest Number in an Array
25. Java Program to find Second Largest Number in an Array
26. Java Program to sort the elements of an array in descending order
27. Java Program to find Smallest Number in an Array
28. Java Program to find Third Largest Number in an Array
29. Program to print the duplicate elements of an array
30. Passing Array to Function In Java
31. Program to left rotate the elements of an array
32. Add elements to Array in Java
33. Program to print the sum of all the elements of an array
34. Java Program to find Second Smallest Number in an Array
35. Program to find the frequency of each element in the array
36. Program to print the elements of an array present on even position
37. Java Program to print the number of elements present in an array
38. Array Rotation in Java
39. Array Slicing in Java
40. How to Create a Mirror Image of A 2D Array in Java
41. Program to print the elements of an array present on odd position
42. Peak Index of Mountain Array Problem in Java
43. Plus One to Array Problem in Java
44. Zigzag Array in Java
45. Java Array Clone
46. Find unique elements in array Java
47. Java Program to Count the Occurrences of Each Character
48. Program to copy all the elements of one array into another array
49. Equilibrium Index of an Array in Java

Java Singly linked list Programs

---

1. Java Program to create and display a singly linked list
2. Java program to create a singly linked list of n nodes and count the number of nodes
3. Java Program to search an element in a singly linked list
4. Java program to insert a new node at the end of the singly linked list
5. Java program to insert a new node at the beginning of the singly linked list
6. Java program to create a singly linked list of n nodes and display it in reverse order
7. Java Program to insert a new node at the middle of the singly linked list
8. Program to sort the elements of the singly linked list
9. Java program to delete a node from the beginning of the singly linked list

10. Java program to remove duplicate elements from a singly linked list
11. Java program to delete a node from the end of the singly linked list
12. Java program to determine whether a singly linked list is the palindrome
13. Program to swap the last element of the singly linked list from the first one
14. Program to find the maximum and minimum value node from a singly linked list
15. Program to swap nodes in a singly linked list without swapping data
16. Insertion in singly linked list at beginning
17. Java program to delete a node from the middle of the singly linked list
18. Program to delete a new node from the beginning of the singly linked list
19. Program to search an element in a singly linked list
20. Searching in singly linked list
21. Deletion in singly linked list at beginning

Java Doubly Linked List Programs

1. Program to create and display a doubly linked list.
2. Java program to create a doubly linked list of n nodes and display it in reverse order
3. Java program to insert a new node at the end of the Doubly Linked List
4. Java program to insert a new node at the middle of the Doubly Linked List
5. Java program to sort the elements of the doubly linked list
6. Java program to delete a new node from the beginning of the doubly linked list
7. Java program to remove duplicate elements from a Doubly Linked List
8. Java program to search an element in a doubly linked list
9. Java program to rotate doubly linked list by N nodes
10. Java program to convert a given binary tree to doubly linked list
11. Program to insert a new node at the beginning of the doubly linked list.
12. Java program to delete a new node from the middle of the doubly linked list

Java Circular Linked List Programs

1. Program to create and display a circular linked list
2. Java program to sort the elements of the Circular Linked List
3. Java program to search an element in a Circular Linked List
4. Java program to create a Circular Linked List of N nodes and count the number of nodes
5. Java program to insert a new node at the end of the Circular Linked List
6. Java program to insert a new node at the middle of the Circular Linked List
7. Java program to insert a new node at the beginning of the Circular Linked List
8. Java program to delete a node from the beginning of the Circular Linked List
9. Java program to delete a node from the end of the Circular Linked List
10. Java program to delete a node from the middle of the Circular Linked List

Java Tree Programs

1. Java program to construct a Binary Search Tree and perform deletion and In-order traversal
2. Java program to implement Binary Tree using the Linked List
3. Java program to search a node in a Binary Tree
4. Java program to find the maximum depth or height of a tree
5. Java program to determine whether two trees are identical
6. Java program to find the sum of all the nodes of a binary tree
7. Java program to find the largest element in a Binary Tree
8. Program to search a node in a Binary Tree
9. Java program to create a doubly linked list from a ternary tree
10. Java program to find the smallest element in a tree
11. Segment Tree in Java
12. Level Order Traversal of a Binary Tree in Java
13. Morris Traversal for Inorder in Java
14. Tree traversal (Inorder, Preorder an Postorder)
15. Preorder Traversal
16. Inorder Traversal
17. Postorder Traversal

18. Binary Tree Traversal in Data Structure
19. Level Order Traversal of a Binary Tree in Java
20. Zigzag Traversal of a Binary Tree in Java
21. Vertical Order Traversal of a Binary Tree in Java
22. Morris Traversal for Inorder in Java
23. Morris Traversal for Preorder in Java
24. Level Order Traversal in Spiral form
25. Red Black Tree Java
26. Level order Traversal in a Binary Tree
27. Boundary Traversal of Binary tree

Java String Programs

1. Java Program to find all the permutations of a string
2. Java Program to separate the Individual Characters from a String
3. Java Program to find Reverse of the string
4. Java Program to count the total number of characters in a string
5. Java Program to find all subsets of a string
6. Java Program to determine whether one string is a rotation of another
7. Write a Java program to count the number of words in a string
8. Java Program to find maximum and minimum occurring character in a string
9. Java Program to toggle each word in String
10. Java Program to determine whether two strings are the anagram
11. Program to print smallest and biggest possible palindrome word in a given string
12. Java Program to swap two string variables without using third or temp variable
13. Java Program to remove all the white spaces from a string
14. Java Program to replace lower-case characters with upper-case and vice-versa
15. Java Program to count the total number of vowels and consonants in a string
16. Palindrome Partitioning Problem in Java
17. Isomorphic String in Java
18. Display Leaf nodes from Preorder of a BST in Java

Error and Exception Programs

1. Java throw Exception
2. Java Custom Exception
3. Arithmetic Exception in Java
4. Exception Class in Java
5. InputMismatchException in Java
6. Java Exception Propagation
7. Java try-catch block
8. customized exception in Java
9. Java finally block
10. How to avoid null pointer exception in Java
11. ConcurrentModificationException in Java
12. FileNotFoundException in Java
13. Different Ways to Print Exception Message in Java
14. How to resolve IllegalStateException in Java
15. Exception Handling with Method Overriding in Java
16. Java 7 Catch Multiple Exceptions
17. NoClassDefFoundError in Java
18. ClassCast Exception in Java
19. Java Console Error
20. Identifier Expected Error in Java
21. Java Catch Multiple Exceptions
22. lang.NoSuchMethodError
23. Chained Exceptions in Java
24. StringIndexOutOfBoundsException in Java
25. NZEC in Java
26. NoSuchElementException in Java

27. Exception in Thread Main java.util.NoSuchElementException no line Found
28. How to Create Test Cases for Exceptions in Java

Class and Interface Programs

1. How to Create Singleton Class in Java
2. Types of Classes in Java
3. Marker Interface in Java
4. ByteStream Classes in Java
5. Dictionary Class in Java
6. Abstract class in Java
7. Wrapper classes in Java
8. Java Inner Classes (Nested Classes)
9. Java Math class
10. Java StringBuffer Class
11. Java Scanner
12. Java static nested class
13. Java FileInputStream Class
14. Java FileReader Class
15. Java Member Inner class
16. Java Console Class
17. How to create Immutable class
18. Exception Class in Java
19. Sealed Class in Java
20. Why We Use Static Class in Java
21. Singleton Class in Java
22. Java Nested Interface
23. Java Functional Interfaces
24. Java Comparable interface
25. Iterator in Java
26. Java Runnable Interface
27. Marker Interface in Java
28. Servlet Interface
29. Java 9 Private Interface Methods
30. Java Predicate Interface
31. Java Consumer Interface
32. Lock Interface in Java
33. TypeScript Interface
34. if Condition in Lambda Expression Java
35. How to Mock Lambda Expression in Java
36. How to Return Value from Lambda Expression Java
37. AWS Lambda in Java

Java Matrix Programs

1. Java Program to add two matrices
2. Java Program to transpose matrix
3. Java Program to multiply two matrices
4. Java Program to display the lower triangular matrix
5. Java Program to find the sum of each row and each column of a matrix
6. Java Program to determine whether a given matrix is an identity matrix
7. Java Program to display the upper triangular matrix
8. Java Program to determine whether a given matrix is a sparse matrix
9. Rotate Matrix by 90 Degrees in Java | Rotate Matrix in Java Clockwise and Anti-clockwise
10. Normal and Trace of a Matrix in Java
11. Java Program to Print Matrix in Z Form
12. Set Matrix Zeros in Java
13. Find Saddle Point of a Matrix in Java
14. Print Matrix Diagonally in Java
15. Rotate A Matrix By 180 Degree in Java

16. Find Saddle Point of a Matrix in Java
17. Program to print the elements of an array in reverse order
18. Set Matrix Zeros in Java
19. Java Program to subtract the two matrices

Java Pattern programs

1. Alphabet Pattern in Java
2. Ladder Pattern in Java
3. Fish Pattern in Java
4. Zig Zag Star and Number Pattern in Java
5. Heart Pattern in Java
6. Butterfly Pattern in Java
7. Crown Pattern in Java
8. Swastika Pattern in Java
9. Christmas Tree Pattern in Java
10. Java Program to Print Spiral Pattern
11. Print Pencil Shape Pattern in Java

Java Conversion Programs

1. Java Convert String to int
2. Java Convert int to String
3. Java Convert Binary to Decimal
4. Java Convert int to char
5. Java Convert Decimal to Binary
6. Java Convert long to int
7. Java long to String
8. Convert Roman to Integer in Java
9. Java Convert int to long
10. Java Convert String to double
11. Java Convert String to char
12. Java Binary to Hexadecimal Conversion
13. Java Convert Decimal to Octal
14. Java String to Date
15. Java Convert char to String
16. Convert Integer to Roman Numerals in Java
17. Convert IP to Binary in Java
18. Program to convert Celsius into Fahrenheit
19. Program to convert Fahrenheit into Celsius
20. Java Convert int to double
21. Java Convert Octal to Decimal
22. Program to convert hours into minutes and seconds
23. Program to Convert m to Feet and Inches
24. Program to Convert Inches to cm
25. Program to Convert cm to Feet and Inches
26. Java Program Number to Word
27. Java Convert Decimal to Hexadecimal
28. Program to Convert Inches to meter
29. Program to Convert Meter to Centimeter
30. Java Convert boolean to String
31. Program to Convert Feet to cm
32. Program to Convert mm to cm
33. Program to Convert millimeter to Feet
34. Program to Convert Feet to m
35. Java Convert char to int
36. Java Convert double to int
37. Program to Convert Feet to Inches
38. Program to convert temperature degree from Celsius to Kelvin
39. Java String to float

40. How to convert byte array to String in Java
41. Java Convert String to boolean
42. Program to Convert Inches to Feet
43. Java Hexadecimal to Binary Conversion
44. Java Convert double to String
45. How to convert String to String array in Java

Java Game Programs

1. Tetris Game in Java
2. Stone Game in Java
3. Sudoku in Java
4. FizzBuzz Program in Java
5. Puzzle Game in Java
6. Example of Pic Puzzle Game
7. Tic Tac Toe Game in Java

File Handling programs

1. How to Create a File in Java
2. How to delete a file in Java
3. How to Read CSV File in Java
4. Java FileWriter Class
5. Java File Extension
6. Java FileReader Class
7. How to Read Excel File in Java
8. Java Program to find the number of the words in the given text file
9. Java FileInputStream Class
10. Copy Content/ Data From One File to Another in Java
11. Java Get File Size
12. Java Program to find the most repeated word in a text file
13. Java - RandomAccessFile
14. How to read file line by line in Java
15. Read PDF File in Java
16. How to Create Zip File in Java
17. Java Program to find the most repeated word in a text file
18. How to make an executable jar file in Java
19. Java File Upload to a Folder
20. Java Create Jar Files
21. List All Files in a Directory in Java
22. Zipping and Unzipping Files in Java
23. Java SFTP | File Transfer Using SFTP in Java JSCH
24. Example to retrieve file from Oracle database

Table of Content

- Java Basic Programs
- Java Pattern Programs
- Java Conversion Programs
- Java Classes and Object Programs
- Java Methods Programs
- Java Searching Programs
- Java 1-D Array Programs
- Java 2-D Arrays (Matrix) Programs
- Java String Programs
- Java List Programs
- Java Date and Time Programs

- Java File Programs
- Java Directory Programs
- Java Exceptions and Errors Programs
- Java Collections Programs
- Java Multithreading Programs
- Java More Java Programs

Java Basic Programs

1. Java Program to Read The Number From Standard Input
2. Java Program to Get Input from the User
3. Java Program to Multiply Two Floating-Point Numbers
4. Java Program to Swap Two Numbers
5. Java Program to Add Two Binary Strings
6. Java Program to Add Two Complex Numbers
7. Java Program to Check Even or Odd Integers
8. Java Program to Find Largest Among 3 Numbers
9. Java Program to Find LCM of 2 numbers
10. Java Program to Find GCD or HCF of 2 numbers
11. Java Program to Display All Prime Numbers from 1 to N
12. Java Program to Check Leap Year
13. Java Program to Check Armstrong Number between Two Integers
14. Java Program to Check whether the input number is a Neon Number
15. Java Program to Check whether input character is vowel or consonant
16. Java Program to Find Factorial of a number
17. Java Program to Find Even Sum of Fibonacci Series Till number N
18. Java Program to Calculate Simple Interest
19. Java Program to Calculate Compound Interest
20. Java Program to Find the Perimeter of a Rectangle

Java Pattern Programs

1. Java Program to Print Right Triangle Star Pattern
2. Java Program to Print Left Triangle Star Pattern
3. Java Program to Print Pyramid Star Pattern
4. Java Program to Print Reverse Pyramid Star Pattern
5. Java Program to Print Upper Star Triangle Pattern
6. Java Program to Print Mirror Upper Star Triangle Pattern
7. Java Program to Print Downward Triangle Star Pattern
8. Java Program to Print Mirror Lower Star Triangle Pattern
9. Java Program to Print Star Pascal's Triangle
10. Java Program to Print Diamond Star Pattern
11. Java Program to Print Square Star Pattern
12. Java Program to Print Pyramid Star Pattern
13. Java Program to Print Spiral Pattern of Numbers

Java Conversion Programs

1. Java Program For Binary to Octal Conversion
2. Java Program For Octal to Decimal Conversion
3. Java Program For Decimal to Octal Conversion
4. Java Program For Hexadecimal to Decimal Conversion

5. Java Program For Decimal to Hexadecimal Conversion
6. Java Program For Decimal to Binary Conversion
7. Java Program For Binary to Decimal Conversion
8. Java Program For Boolean to String Conversion
9. Java Program For String to Double Conversion
10. Java Program For Double to String Conversion
11. Java Program For String to Long Conversion
12. Java Program For Long to String Conversion
13. Java Program For Int to Char Conversion
14. Java Program For Char to Int Conversion

Java Classes and Object Programs

1. Java Program to Create a Class and Object
2. Java Program to Create Abstract Class
3. Java Program to Create Singleton Class
4. Java Program to Create an Interface
5. Java Program to Show Encapsulation in Class
6. Java Program to Show Inheritance in Class
7. Java Program to Show Abstraction in Class
8. Java Program to Show Data Hiding in Class
9. Java Program to Show Polymorphism in Class
10. Java Program to Show Overloading of Methods in Class
11. Java Program to Show Overriding of Methods in Classes
12. Java Program to Show Use of Super Keyword in Class
13. Java Program to Show Use of This Keyword in Class
14. Java Program to Show Usage of Static keyword in Class
15. Java Program to Show Usage of Access Modifier

Java Methods Programs

1. Java Program to Show Usage of Main() method
2. Java Program to Show Use of Static and Non-static Methods
3. Java Program to Show Usage of forEach() Method
4. Java Program to Show Usage of toString() Method
5. Java Program to Show Usage of codePointAt() Method
6. Java Program to Show Usage of compare() Method
7. Java Program to Show Usage of equals() Method
8. Java Program to Show Usage of hasNext() and next() Method
9. Thread Lifecycle Methods

   start() Method
   run() Method

Java Searching Programs

1. Java Program For Linear Search
2. Java Program For Binary Search
3. Java Program to Recursively Linearly Search an Element in an Array

Java 1-D Array Programs

1. Java Program to Search an Element in an Array
2. Java Program to Find the Largest Element in an Array
3. Java Program to Sort an Array
4. Java Program to Sort the Elements of an Array in Descending Order

5. Java Program to Sort the Elements of an Array in Ascending Order
6. Java Program to Remove Duplicate Elements From an Array
7. Java Program to Merge Two Arrays
8. Java Program to Check if Two Arrays Are Equal or Not
9. Java Program to Remove All Occurrences of an Element in an Array
10. Java Program to Find Common Array Elements
11. Java Program to Copy All the Elements of One Array to Another Array
12. Java Program For Array Rotation

Java 2-D Arrays (Matrix) Programs

1. Java Program to Print a 2D Array
2. Java Program to Add Two Matrices
3. Java Program to Sort the 2D Array Across Columns
4. Java Program to Check Whether Two Matrices Are Equal or Not
5. Java Program to Find the Transpose
6. Java Program to Find the Determinant
7. Java Program to Find the Normal and Trace
8. Java Program to Print Boundary Elements of a Matrix
9. Java Program to Rotate Matrix Elements
10. Java Program to Compute the Sum of Diagonals of a Matrix
11. Java Program to Interchange Elements of First and Last in a Matrix Across Rows
12. Java Program to Interchange Elements of First and Last in a Matrix Across Columns

Java String Programs

1. Java Program to Get a Character From the Given String
2. Java Program to Replace a Character at a Specific Index
3. Java Program to Reverse a String
4. Java Program to Reverse a String Using Stacks
5. Java Program to Sort a String
6. Java Program to Swapping Pair of Characters
7. Java Program to Check Whether the Given String is Pangram
8. Java Program to Print first letter of each word using regex
9. Java Program to Determine the Unicode Code Point at a given index
10. Java Program to Remove leading zeros
11. Java Program to Compare two strings
12. Java Program to Compare two strings lexicographically
13. Java Program to Print even length words
14. Java Program to Insert a string into another string
15. Java Program to Splitting into a number of sub-strings

Java List Programs

1. Java Program to Initializing a List
2. Java Program to Find a Sublist in a List
3. Java Program to Get Minimum and Maximum From a List
4. Java Program to Split a list into Two Halves
5. Java Program to Remove a Sublist from a List
6. Java Program to Remove Duplicates from an Array List
7. Java Program to Remove Null from a List container
8. Java Program to Sort Array List in an Ascending Order
9. Java Program to Get First and Last Elements from an Array List
10. Java Program to Convert a List of String to Comma Separated String
11. Java Program to Add Element at First and Last Position of a Linked list
12. Java Program to Find Common Elements in Two ArrayList

13. Java Program to Remove Repeated Element From An ArrayList

Java Date and Time Programs

1. Java Program to Format time in AM-PM format
2. Java Program to Display Dates of Calendar Year in Different Format
3. Java Program to Display current date and time
4. Java Program to Display time in different country's format
5. Java Program to Convert the local Time to GMT

Java File Programs

1. Java Program to Create a new file
2. Java Program to Create a temporary file
3. Java Program to Write into a file
4. Java Program to Rename a file in java
5. Java Program to Make a File Read-Only
6. Java Program to Compare Paths of Two files
7. Java Program to Copy one file into another file
8. Java Program to Print all the Pattern that Matches Given Pattern From a File
9. Java Program to Append a String in an Existing File
10. Java Program to Read content from one file and writing it into another file
11. Java Program to Read and printing all files from a zip file

Java Directory Programs

1.
2. Java Program to Traverse in a directory
3. Java Program to Get the size of a directory
4. Java Program to Delete a Directory
5. Java Program to Create directories recursively
6. Java Program to Search for a file in a directory
7. Java Program to Find the current working directory
8. Java Program to Display all the directories in a directory

Java Exceptions and Errors Programs

1. Java Program to Show Runtime Exceptions
2. Java Program to Show Types of Errors
3. Java Program to Handle the Exception Hierarchies
4. Java Program to Handle the Exception Methods
5. Java program to Handle the Checked exceptions
6. Java Program to Handle the Unchecked Exceptions
7. Java Program to Handle Divide By Zero and Multiple Exceptions
8. Java Program to Show Unreachable Code Error
9. Java Program to Show Thread interface and memory consistency errors

Java Collections Programs

1. Java Program to Use Different Types of Collection
2. Java Program to Print a Collection
3. Java Program to Compare Elements in a Collection
4. Java Program to Get the Size of the Collection
5. Java Program to Compare Elements in a Collection

6. Java Program to Shuffle the Elements of a Collection
7. Java Program to Reverse a Collection
8. Java Program to Convert Collection into Array
9. Java Program to Convert Array into Collection
10. Java Program to Replace Elements in a List
11. Java Program to Rotate Elements of a List
12. Java Program to Iterate through Elements of HashMap

Java Multithreading Programs

1. Java Program to Check the Thread Status
2. Java Program to Suspend a thread
3. Java Program to Join Threads
4. Java Program to Show Daemon Thread

Java More Java Programs

1. Java Program to Print Fibonacci Series in Different Ways
2. Java Program to Convert Linked List to an Array
3. Java Program to Convert Vector to a List
4. Java Program to Convert String to a List of Characters
5. Java Program to Convert Iterator to a List
6. Java Program to Convert List to a Map
7. Java Program to Convert List to a Stream
8. Java Program to Convert List to Set
9. Java Program to Convert InputStream to String
10. Java Program to Convert Set of String to Array of String
11. Java Program to Convert String to Object
12. Java Program to Convert string value to byte value
